Justification for decision: (Use continuation sheet if necessary and attach map)

The Air Force's consultant determined these buildings ineligible based on age and/or integrity. The World War II buildings have been significantly altered and do not form any cohesive architectural identity. The Trust concurred that all of these buildings were not eligible.

Documentation on the property/district is presented in: with this MHIP form and Andrews Air Force Base compliance file

## Capsule Summary

Inventory No. PG: 77-21

Property Name: Water Pump Station #1836

Location: Andrews Air Force Base

Ownership: Public/Military

Date of Construction: ca. 1944

Building #1836 is a one-story tall, rectangular concrete block structure designed and use as a water pumping station. The building has an asphalt single covered gable roof, with two large exhaust fans protruding from one side of the roof. It has a one-story shed roof additions on two sides, and exterior machinery at one end. All original doors and windows have been replaced or blocked up.

Building #1836 was put up as part of the third wave (1944) of construction at the base. It was designed as a utilitarian structure to house water pumping equipment. Since its erection, the structure has been substantially modified with the closure or replacement of all original doors and windows. In addition, two shed lean-tos were placed on facades of the structure. The integrity of the structure has been diminished through these modifications and additions.
